SMARTBoard Training	<i>Interactive whiteboard training</i>
Technology Plan Development	<i>Guidance in building your district's technology plan</i>
Website Development	<i>Using Google Sites to develop a district-wide web presence</i>

# Information Technology Support Services (ITSS)

Contracted Consortium Service (ET01)

Student needs are changing as we prepare them to be career and college ready by graduation. We also know teachers need the support, professional development, and confidence to have an impact on the learning. CESA 5 has designed the ITSS service with the district, teacher, and student in mind.

Effective PK-12 Instructional Technology programs have a direct impact on student achievement and assure equity in education for all students. Select ITSS services (ET01) and the district will receive access to the following services which are completely customizable to the current trends and needs of your district.

## Information Technology Support Services (ITSS) includes:

- > In-district training = 4 days (half-day increments)
- > Membership in each Professional Network
- > Discounts on workshops held @ CESA5

### Leadership

The leaders of your district are being asked to be experts in many areas today. Call on the expertise and passion of CESA 5 personnel to assist your district with creating a vision to address an ever changing digital world.

- > Future Ready School Planning
- > TEACH Grant Logistics
- > District Technology Committee membership
- > Administrative and Leadership Team meetings
- > School Board presentations

### Professional Development

Students' needs are changing as rapidly as the technological tools being used by them. Give your staff the needed high-quality professional development to engage today's digital learner.

- > In-district Training/In-service/Early Release
  - Customized workshop based on current district needs
  - Savings on substitute costs
- > CESA 5 based workshops
  - Topics based on emerging trends

### Professional Networks

Learning from other professionals is an important part of being an educational leader. These professional networks are included for consortium members.

- > Digital Learners Network combining Library Media Specialists and Technology Coaches/Integrators
- > Technology Coordinator Network

### **ET02 - Special Education Instructional Materials Center (SEIMC)**

The SEIMC is a specialized preview library offering comprehensive media services to teachers and other professionals responsible for the education of students with disabilities. Materials include computer software, adaptive equipment, augmentative communication devices, instructional kits, books, manipulatives, assessment materials, and professional resources.

SEIMC materials can be previewed during office hours and the SEIMC Director is available for phone consultation. An online catalog of Media Center materials (<http://catalog.cesa5.org>) provides easy access to catalog listings through keyword searching; advance reservations for SEIMC materials can also be made through this site.

### **TS01 - Technology Support Specialist**

CESA 5's Technology Support Specialists work in your schools to ensure your student, teacher, and office technology is functional for day-to-day use. Our technicians typically work in multiple school districts.

*Technology Support Specialist responsibilities include:*

- Developing and implementing purchase and service arrangements
- Installing and configuring hardware and providing training
- Installing software and troubleshooting
- Administering networks and troubleshooting
- Developing and maintaining technology inventory
- Completing typical break/fix work on your school's computer/tablet devices

*How Can This Service Benefit Your District?*

- Your primary technician is supported behind the scenes by other technicians at CESA 5
- Multiple technicians will be familiar with your network and operations; minimizing the learning curve any local employee turnover would cause
- Our technicians receive continual training and learn what works in other districts
- Access to additional consultation and resources through CESA 5
