GS01 – District Membership Fee

Each member district pays a fee based on their district's average daily membership as it compares to the total average daily membership of all CESA 5 districts. This payment is designated for the maintenance and operation of the office of the Board of Control and Agency Administrator.

GS02 - Driver's Education

CESA 5 currently provides Driver's Education services in three districts. The program in each of these districts is designed based on the needs of the District. We provide classroom and/or Behind the Wheel (BTW) instruction.

The individual school defines the curriculum, enrollment, tracks the students, and collects the fees. CESA 5 typically provides the licensed instructor, the vehicle, and all of the necessary supplies and insurance to keep the vehicle operational. The instructors we use are all DPI certified and have many years of experience.

CESA 5 charges for the service on a per student basis. The charges can range from less than \$300 for Behind-The-Wheel only; to under \$400 for a complete Driver Education experience. (Actual cost for your program will depend on program requirements, instructor availability, and vehicle cost.)

Quick Facts

- 3 districts currently participate in this service.
- Cost per student can range from approximately \$275 to \$400 depending on program design.

How Can This Service Benefit Your District?

- Your district can design a program that meets your needs at a reasonable cost.
- Vehicle procurement and maintenance are taken care of by CESA 5.
- You can influence the quality of the Drivers Education program for your students.
